REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Barrington:

During the past year progress has been made both in the material welfare of the schools and in their economical administration, as well as along the line of instruction. Improvements in schoolhouses included rebuilding of the shed at Pond Hill, so that now all five of our school buildings have toilet rooms opening out of the schoolroom. At Oak Hill, great improvement in lighting has resulted from enlarging the window area. At Waldron Hill, the entry ways have been rearranged, with an improvement in lighting and in closet space. I would recommend that the District provide one school each year with permanent playground apparatus. The Greeks regarded music and physical training as the fundamentals in education. Doubtless we would do well to make more provision for exercise in the open air. A new and improved primary reading system has been introduced into the primary grades, which is having excellent results.

The schools maintained are the same as those of last year.

School	Teacher	Enrollment
Green Hill,	Mrs. Mae E. Scruton,	11
Oak Hill,	Mrs. Grace H. Brock,	20
Pond Hill,	Mrs. Merle L. Beebe,	17
Waldron Hill,	Miss Edith Caverly,	20
Winkley,	Mrs. Melissa H. Blaisdell,	24

Educational expenditures are carefully planned in the School Board's Estimate, drawn up in February and presented to the District meeting. This estimate is still further revised in October, when a Budget is

passed upon by the State Board of Education for approval and allotment of State Aid. Thus the School Board has been carrying out the purpose and spirit of the new Municipal Budget Act for many years. While the median cost of Elementary Schools in the state increased last year \$4.47 per pupil, the same item in Barrington decreased \$1.54. Moreover, the "estimate" for next year is \$1,258.18 (or 12%) lower than that of a year ago. In regard to state expenditures, the Comptroller's report for the year ending June 30, 1934, showed education taking 8.21 cents of the state dollar, being exceeded by highways (42.82) and charities and correction (27.13).

But this financial support would not assure the success of education without the cooperation of parents and other citizens. The school authorities appreciate the efforts of every parent who sends the children to school every single day that it is possible. On the other hand, we also appreciate the judgment of a parent who keeps at home under observation for a day or two a child suffering from a severe cold or possible symptoms of a communicable disease. Under the direction of the School Nurse, the Woman's Club assisted in making a dental clinic possible, where fifteen pupils received complete dental care. This project was also helped by the Federal Child Health Recovery Program.

Respectfully submitted,

CHESTER W. DOE,

Superintendent of Schools.

February 15, 1936.
